Mr. Rick Breitwisch
CALFED Bay Delta Proj.
1416 Ninth St.
Suite 1155
SAC, CA 95814

Dear Mr. Breitwisch:

Please adopt a plan that:

- Maximizes water efficiency and conservation, and bases future water needs on realistic assumptions rather than inflated demands;
- Removes barrier dams, increases instream flows, and acquires and restores habitat for fish and wildlife
- Does not rely on proposed dam raises or new offstream storage reservoirs
- Improves water quality by enforcing pollution limits

Thanks!
Lee Ellow Noto
